Suitable exterior materials include only wood, manufactured/cultured stone, natural stone, brick, hardy board (or similar), and stucco. All construction shall be of good quality workmanship and materials. At least fifty percent (50%) of the exterior finish of each Dwelling shall consist of stone, rock, brick, hardy board (or similar), or stucco, provided that no more than fifty percent (50%) of the exterior finish of each Dwelling shall consist of stucco mix and/or new wood (hardy board or similar). For example, an exterior may consist of a 50%/50% mix of stucco and stone, 50%/50% mix of brick and stucco, 50%/50% mix of wood and stone, a 50%/50% mix of brick and wood, or a mix of 50% rock/stone/brick with 50% of stucco or wood. Dwellings with only a combination of stucco and wood (including hardy board or similar) is prohibited. Natural stone, cultured stone, and brick must be included in the exterior mix.

Only those exterior materials which will blend harmoniously with the natural environment, with special emphasis on earth toned colors, shall be permitted for Dwellings. The exposed foundation of a Dwelling may be colored to match stucco elsewhere on the Dwelling, if applicable. Stucco is not permitted for eaves and gable ends. The main exterior color of each Dwelling must be at a minimum of several shades lighter or darker than existing homes on adjacent Lots. The typical roof pitch shall be at least 6/12. The DRC may grant a variance of the roof pitch. A minimum width of six (6) inches shall be required on the fascia. All stacks and chimneys of fireplaces from which the gaseous products of combustion (other than natural gas) are vented shall be fixed with a spark arrester.

Roofs of Dwellings must be constructed of either asphalt shingles, asphalt laminated shingles, wood shake shingles, or concrete (a.k.a. tile) shingles. Shingles must be architectural grade and have a minimum 25-year warranty. Proposed colors, styles, and request for variance must be submitted in writing to the DRC for approval prior to installation.

No aluminum, vinyl or similar siding materials will be permitted on Dwellings, with the following exception: aluminum and vinyl materials will only be allowed at soffit and fascia area. Log Dwellings are prohibited.

Exhibit "B", attached hereto and incorporated herein by this reference, contains illustrations of the types of exterior elevations and finishes that would comply with the standards set forth in this Section 2.1.

2.2. Minimum Dwelling Size. No Dwelling shall be permitted where the floor area of the Dwelling, exclusive of attached garages and open porches, is less than the following measurements: (a) for a single-story Dwelling, 2,600 feet, not including basement area; (b) for two-story Dwelling, 2,000 square feet on the main floor and 1,600 square feet on the second floor, not including basement area.

Lots 1 through 9 (as shown on the Plat) may reduce the size of the Dwelling as much as twenty percent (20%) below the floor area standards set forth above. The DRC may vary those minimum requirements if, for example, a rambler-type home substantially exceeds the main level (minimum square foot) allowances, in which case the second level (minimum square foot) allowance may be reduced.

2.3. Attached Garages. Each Dwelling must have at least three (3) vehicle garage doors; each being a minimum of nine-feet wide; attached to the Dwelling. However, in lieu of three separate garage doors, a combination of one eighteen-foot-wide door and one nine-foot-wide door shall be permitted if the garage will accommodate three vehicles side-by-side. Two deep garages with only two single garage doors will not be counted as a three-car garage.

2.4. Detached Garages. Detached garages shall not exceed two stories in height, nor have less than a 6/12 roof pitch, nor exceed City's height restrictions. Exterior materials shall comply with the standards for Dwellings set forth in Section 2.1 above. Detached garages shall be first approved by the DRC before submission to City for approval. No detached garage shall exceed the height of the related Dwelling unless otherwise restricted by the City. Tuff sheds (portable), accessory buildings and tool/garden sheds are strictly prohibited unless the exterior matches the exterior finish of the Dwelling, and Owner first receives permission from the DRC first and then the City.

2.5. Exterior Lighting and Outlets. All Dwellings are required to have at least one no-volt electric outdoor post lamp retrofitted with a 20-amp electrical outlet (weather type) at the base of the light post. The post lamp will require an activating light sensor with a minimum of 100 equivalent (LED) watts of lighting by either single bulb or by multiple bulbs. Exterior garage lighting must also be sensor-activated with a minimum of two LED bulbs. Burned out light bulbs must be promptly replaced. All security lighting must always be maintained in good working order. At least two exterior outlets (weather type) shall be located at the front and at each end of the Dwelling.

These outlets must be on separate amperage breakers and may be placed within the soffit.

2.6. **Utility Connections.** Owners are solely responsible for paying for all utility connection and related fees for their Lots. Further, Declarant recommends, but does not require, the installation of a minimum 200 AMP service entry power meter. Owners are not allowed to "reduce" the water meter in size.

2.7. **Swimming Pools.** Swimming pools must be constructed, fenced, and maintained in accordance with all state and municipal requirements.

2.8. **Room Rentals / Home Office.** Rooms within a Dwelling or within a detached garage may NOT be used as rentals. Rooms within a Dwelling or within a detached garage may NOT be used as for an office if customers or employees will regularly visit or work from within that space. Home business day care is NOT allowed.

2.9. **Roof-Mounted Air Conditioners.** Roof-mounted air conditioners are strictly prohibited for any Dwelling or detached garage.

ARTICLE III. DECLARANT DESIGN REVIEW COMMITTEE

3.1. **Design Review Committee.** ("DRC") During the period of Declarant Control, the Project will be governed by a Design Review Committee consisting of members appointed by Declarant.

3.2. **Approval Required of Improvements.** Except for Improvements to be constructed by Declarant, no Improvement, including, by way of illustration and not of limitation, a building, shed, patio, fence, wall or other structure shall be commenced, erected, altered or added to until the "Plans and Specifications" for the Improvement showing the nature, kind, shape, height, materials, exterior color scheme and location of such structure, and the grading plan and finished grade elevations of the Lot upon which the Improvement shall be constructed have been submitted to and approved by the Design Review Committee. Such approval shall be in writing and a copy of such approval shall be maintained by the Design Review Committee. All subsequent additions to or changes or alterations in any building, fence, or other Improvement, including exterior color scheme and all subsequent additions to or changes or alterations in any grading or landscaping plans shall be subject to the prior approval of the Design Review Committee.

3.3. **Approval.** The DRC shall approve Plans and Specifications submitted for its approval only if it deems that the construction, alterations, or additions or Improvements contemplated thereby in the locations indicated, will not be detrimental to the surrounding area or Lots as a whole, and that the appearance of any proposed Improvement affected thereby will be in harmony with the surrounding Improvements.

The DRC shall have the right to refuse to approve any Plans or Specifications, or grading or landscaping plans which, in the opinion of the members of DRC, in the exercise of their reasonable judgment, are not consistent with the requirements of this Declaration or the general character of the Project. Such determination may be made for aesthetic or other reasons, and in the review and approval or disapproval of Plans and Specifications, the DRC shall have the right to take into consideration the suitability of the proposed building or other Improvement and of the materials of which it is to be built, to the Lot upon which it proposes to erect the same, the harmony thereof with the surroundings, the topography of the land and the effect of the building or other Improvements as planned on the outlook from the adjacent or neighboring Lots. The DRC may also issue rules or guidelines regarding anything relevant to its function, including but not limited to minimum standards and procedures for the submission of Plans and Specifications for approval. The DRC may require a review fee not to exceed Two-Hundred Dollars (\$200.00) to accompany each application for approval and a reasonable fee for any appeal waiver to the Design Review Committee. The DRC may require such detail in Plans and Specifications submitted for its review and such other information, as it deems proper. Until receipt by the DRC of all required Plans and Specifications and other information, the DRC may postpone review of anything submitted for approval. All Improvements must comply with the zoning codes, ordinances and architectural design guidelines of the City. (All plans submitted to the City must bear the DRC's stamp of approval to verify to the City the plans have been reviewed and approved by the DRC.)

3.4 Waiver of Consent. The approval or consent of the DRC to any Plans or Specifications for any work done or proposed, or in connection with any other matter requiring the approval or, consent of the DRC, shall not be deemed to constitute a waiver of any right to withhold approval or consent as to any Plans or Specifications or other matter whatever subsequently or additionally submitted for approval or consent by the same or a different person.

3.5 Non-liability of DRC Members. Neither Declarant, the DRC nor any member thereof, shall be liable to any Owner or to any other person for any loss, damage or injury arising out of or in any way connected with the performance of the DRC's duties under this Declaration unless due to the willful misconduct or bad faith of the DRC or its members. Neither the DRC nor any member thereof shall be responsible for reviewing, nor shall its approval of any Plans and Specifications be deemed approved from the standpoint of structural safety, engineering soundness, or conformance with building or other codes, or any requirements of the City.

ARTICLE IV. GENERAL BUILDING REQUIREMENTS

4.2. **Exterior Materials.** All Dwellings must conform in design, including but not limited to Exterior Materials, with the standards provided by the Declarant.

4.9. **Storage of Building Materials.** No Lot Owner shall allow building materials to be stored on any Lot except temporarily during construction of an Improvement or its alteration, renovation or remodeling, and then only when a building permit is in force. 4.10. **Landscaping and Fencing.** See Article VII of these Restrictive Covenants.

4.11. **Occupancy During Construction.** No Improvement shall be occupied in the course of original construction until the appropriate governmental authorities have issued all required certificates of occupancy.

4.12. **Temporary Structures.** No trailer, mobile home, tent, shack or other temporary building or structure shall be placed upon any Lot, except that temporary

structures or construction trailers used for the storage of tools and equipment and/or for office space for architects, sales personnel, builders and foremen during actual construction and sales may be maintained. Nothing herein shall be construed to prohibit the parking of travel trailers owned by an Owner on the Lot of such Owner; provided, however, that such travel trailer shall not be used for sleeping or other occupancy on a consistent basis on such Lot. The provisions of this section shall not be applicable to Declarant or any party contracted with Declarant for the original sale of the Lots in the Project and the construction of the original residences.

4.13. **Construction Activities.** This Declaration shall not be construed so as to unreasonably interfere with, or prevent normal construction of Improvements by any Owner, provided that when completed such Improvements shall in all ways conform to this Declaration. Specifically, no such construction activities shall be deemed to constitute a nuisance or a violation of this Declaration by reason of noise, dust, presence of vehicles or construction machinery, posting of signs, or similar activities, provided that such construction is pursued to completion with reasonable diligence and is in compliance with applicable federal, state and local laws and ordinances and any rules and regulations adopted pursuant thereto, and conforms to usual construction practices in the area. In the event of any dispute, a temporary waiver of the applicable provision, including but not limited to any provision prohibiting temporary structures, may be granted by Declarant, provided that such waiver shall be only for the reasonable period of such initial construction. Such waiver may, but need not, be recorded or in recordable form.

4.14. **Driveways.** Driveways for Dwellings shall be large enough to accommodate at least two (2) parked automobiles (16-foot minimum width). Hard surface driveways (concrete, brick, pavers, etc.) are required and shall be properly maintained. No gravel driveways are permitted.

4.15. **Outbuildings.** All outbuildings shall be architecturally compatible with the Dwelling and other Improvements located on the same Lot. An outbuilding shall comply with applicable zoning ordinances of the City and in no event shall the outbuilding be located closer than five (5) feet from the rear corner of the Dwelling located the furthest from the street upon which the Lot is located. Outbuildings shall be an Improvement and, therefore, subject to approval of the Declarant or DRC as set forth above.

ARTICLE V. ANIMALS

5.1. **Animals and Pets.** The keeping of animals other than those ordinarily kept as family pets within the Subdivision is forbidden. Livestock, poultry, **pit bull and pit bull mix dog breeds are strictly prohibited.** Such pets shall have such care and restraint so as not to be obnoxious or offensive on account of noise, odor, or unsanitary conditions. No savage or dangerous animals shall be kept. No animals, livestock or poultry of any kind shall be bred in, on or about the Subdivision. Up to three domestic pets per Dwelling are allowed; provided, however, all pets must be properly licensed

and registered (if required) with the appropriate governmental agencies and follow all applicable local ordinances. Pets in the Subdivision at large must be behind a fence, in a cage or on a leash and under the control of a responsible person. Pets may not create a nuisance. The following acts of an animal may constitute a nuisance:

ARTICLE VI. UTILITIES

6.1. **Underground Utilities Required.** Each Lot shall be and is hereby made subject to all easements that now or in the future may be used for gas, electric, telephone/data, cable television, water, sewer, and other lines present or in the future, as are necessary to provide utility services to said Lot, adjoining Lots, and the Improvements thereon, including, without limitation, all easements shown on the Subdivision Plat. Each Owner hereby agrees to execute such further grant or other documentation as may be required by any utility or other company or public governmental or quasi-governmental entity for such purposes. Subsequent to the date of execution of the Declaration, any necessary electrical, telephone, gas, water, sewer, cable television, and other utility conduits, lines and pipes on any Lot shall be placed underground, except for transformers, meters and other equipment typically located on the surface of the ground within the easement. In the event that an Owner elects not to rebuild an Improvement which has been destroyed or otherwise rendered uninhabitable, then the Owner shall remove the remaining portion of such Improvements within six (6) months of the date of such damage and cause the Lot to be graded and in a safe condition.

7.5. **Nuisances.** No resident shall create, maintain or permit a nuisance in, on or about the Project. For purposes of this Section a "nuisance" includes any behavior which annoys, disturbs or interferes with other residents and interferes with their right to the quiet and peaceful enjoyment of their property. No rubbish or debris of any kind shall be placed or permitted to accumulate upon any Lot, and no odors shall be permitted to arise there from so as to render any such Lot or any portion thereof, in the opinion of the Declarant, unsanitary, unsightly, offensive or detrimental to any other Lots or Improvements or to its occupants. No noise or other nuisance shall be permitted to exist or operate upon any Lot to be, in the opinion of the Declarant offensive or detrimental to any other Lot or its occupants. Vehicles shall not be parked at any location within the Subdivision which would impair vehicular or pedestrian access, or snow removal. No unlicensed or inoperable vehicles may be stored on any Lot. ARTICLE VIII. LANDSCAPING AND DRAINAGE

8.1 **Completion of Landscaping.** The front yard of each Lot shall be fully landscaped no later than one (1) year following the completion of construction of any Dwelling on any Lot. The rear yard of each Lot is to be graded and or fenced within one (1) year following the completion of construction of any Dwelling on any Lot and fully landscaped not later than two (2) years following the completion of construction of any Dwelling on any Lot. Thereafter, each Owner shall maintain the landscaping on its Lot in a reasonably neat and good condition, and all dead trees, shrubs, plants or grass shall be promptly removed or replaced. Landscaping and all grading and drainage shall be initially designed in such a way to control water run-off so that any Lot within the Subdivision will not be adversely affected by another.

8.2 **Front Yard Landscaping.** The front yard of a lot is defined as the area of the Lot beginning at the road pavement on any adjacent public street or roadway to a distance at least to the rear most part of the Dwelling from such public street or roadway. If the Lot is on a corner of two or more public streets or roadways then the side yard adjacent to the public street or roadway, all the way to the rear property line, shall be included in the area to be landscaped. All areas defined herein shall be planted or sodded or otherwise maintained in a natural and native material or setting. All such

areas shall be irrigated as necessary and cut or maintained to reflect a weed-free and attractive appearance.

A minimum number of trees (as determined below) shall be planted on each Lot within the time outlined in Section 8.1 Trees shall be deciduous tree with a minimum diameter of three-inch caliper (the diameter of the tree ten inches-above the top of root-ball), and eight foot minimum height. The types of trees suggested for the Project area are listed on the City's web page. Poplars, Russian Olives, Chinese Elms, Chinese Elm, Weeping Willows, Box Elder and any other tree the City does not list on its web page are strictly prohibited. Owners are required to show on their home site plan that is submitted to the DRC for approval, a tree layout plan between the curb/gutter and sidewalk, which area is known as the park strip. Further, Owners are required to show a note on their home site plan indicating the placement of sod and irrigation (sprinkling) within the park strip. Declarant will install the sidewalk shortly after the curb and gutter and road is installed. However, it will be Owner's responsibility to cut the curb and gutter at the location Owner chooses to place the driveway within the Lot.

In addition to the purchase price of the Lot, each Owner will be required to deposit with Declarant \$300 dollars per tree as required by City (all tree deposits will be held in escrow by the Declarant). Depending upon the size and location of each Lot, City requires between two and five trees to be planted in each Lot's park strip (a notification of the required number of trees per Lot will be disclosed within the purchase contract for each Lot). Declarant will keep on record a list of the accounted number of trees required by the City for each Lot. Declarant shall refund the deposit upon the Owner installing the required number of trees. Maintenance of the trees and grass within the park strip of each Lot is the Owner's responsibility.

8.4 Road Rights of Way. Each Owner will maintain the area from the edge of road pavement to the front Lot line as needed to supplement City maintenance to ensure weed control, grass and vegetation height, uniform appearance, etc. Owners shall maintain the respective areas in front of their Lots free of trash, debris, etc. Any and all damage done to the road, sidewalks and curb and gutter due to construction within Lots is the sole responsibility of each respective Owner, and repairs shall be undertaken promptly and made in conformance with City standards.

8.5 Drainage. No material change may be made in the ground level, slope, pitch or drainage patterns of any Lot as fixed by the original finish grading except after first obtaining the prior written approval of the Declarant. Grading shall be maintained at all times so as to conduct irrigation and surface waters away from buildings and so as to protect foundations and footings from excess moisture. Any drainage flows directed to adjacent Lots should not exceed historic flows. Owners shall not impede or retain water flow in any of the natural drainage gulches.

8.6 **Fencing.** Lots must be finish graded before the installation of fences. Each Lots that borders the City's open space (as depicted on the Plat) must install wrought iron fencing on that border, in the style and fashion as currently installed within the neighboring Hidden Canyon Estates Phase 1 Subdivision. Similar wrought iron fencing is preferred for the borders between each Lot. In lieu thereof, however, earth tone stone cultured block fencing is permitted. Side yard gates made of composite wood is permitted. Vinyl fences, and regardless of color, are strictly prohibited. Chain link factory-coated galvanized fence in either in black or green color is allowed within the interior of a Lot for purposes of a tennis court, swimming pool, or pet enclosure; however, chain link fencing cannot be used as perimeter fencing of any Lot. Height of fencing may not exceed City's requirements; provided, however, that a written exception may be given for tennis courts, upon request and approval of the DRC.

8.7 **Private Drainage Easements and Storm Drain Systems.** The Project contains Drainage Easements as depicted on the Subdivision Plat. The Drainage Easements may contain infrastructure designed to collect and divert excess runoff and storm water that may occur in the Project from time to time ("**Storm Drain System**"). As depicted on the Subdivision Plat, there may be multiple Storm Drain Systems within the Project that operate independently from one another. It is intended that these Storm Drain Systems be constructed in a manner consistent with the specifications dictated by the City, although deviations may occur if required by the City, the topography of the land, or at the discretion of the Declarant.

1) **Easement.** Each Owner of a Lot benefitted by a Storm Drain System shall have a right and easement over, across, above, and under the Drainage Easement appurtenant to their Lot for the inspection, maintenance, repair, and replacement of the Storm Drain System that serves their Lot. Similarly, the City shall also have a right and easement across and under the Drainage Easement for the inspection, maintenance and repair of the Storm Drain System.

2) **No Building Permitted.** Owners shall be prohibited from constructing any shed, fence, concrete pad, or other permanent or semi-permanent structure within the designated area of the Drainage Easements.

3) **Maintenance Duty of Lot Owners.** Each Lot Owner benefitted and served by a Storm Drain System shall have a duty to maintain the portion of the Storm Drain System that crosses such Owner's Lot. This maintenance duty shall include the obligation to routinely clean and clear all drain connections into the Storm Drain System including the Lot Owner's yard drain and roof drain connections, if any. Owners shall take precautions to prevent debris from entering their Storm Drain System.

4) **Costs of Repair and Replacement.** The costs to repair or replace a Storm Drain System shall be borne by those parties benefitted thereby in

proportion to the benefit received. Notwithstanding the foregoing, if the need, for repair or replacement of a Storm Drain System results from an Owner's abuse, neglect, failure to maintain, or negligent or intentional acts, then the cost of repair or replacement shall be borne exclusively by the responsible Owner.

5) **Notice of Repair.** If the need arises for repair or replacement of a Storm Drain System, the Owner conducting such repair or replacement shall follow the following notice procedures prior to performing any repair:

(a) **Non-Emergency Repair.** An Owner discovering the need for repair to the Storm Drain System shall notify the other Owners benefited thereby and shall submit to them the estimated cost of the repair prior to performing any repairs or incurring any costs. The notified Owners shall have thirty (30) days to conduct their own investigation into the need for the repair and the estimated costs. If an Owner does not dispute the need for repair or the estimated repair costs, then such Owner shall contribute his/her proportional obligation of the cost to repair within thirty (30) days of receiving the notice. If an Owner disputes the need for repair or the estimated costs, then it shall follow the Dispute Resolution procedures outlined in subsection 6 below. After the expiration of thirty (30) days from notifying the other benefitted Owners, an Owner may endeavor to repair the Storm Drain System and seek reimbursement from the other benefitted Owners as provided herein.

(b) **Emergency Repair.** If the need for repair or replacement of a Storm Drain System is necessary to prevent imminent harm to an Owner's property, then such owner may act to repair the Storm Drain System without being subject to the thirty (30) day notification and response period required above. If it is determined that an Owner's actions in making the emergency repair were in good faith and the costs incurred were economically sound, then the other benefitted Owners of a repaired Storm Drain System shall be obligated to reimburse the repairing Owner for his/her repair costs incurred according to each benefitted Owner's proportional obligation.

(c) **Failure to Dispute.** If an Owner receives notice regarding the need to repair a Storm Drain System and fails to contest the contents of the repair notice according to the Dispute Resolution procedures in subsection 6 below within thirty (30) days of receiving the repair notice, then such Owner shall have waived his right to dispute the contents of the repair notice and shall be obligated to the other Owner(s) for his/her proportion of the repair costs.

(d) **Failure to Notify.** If an Owner incurs costs to repair a Storm Drain System and fails to notify the other Owners prior to incurring such costs as required above, then such Owner shall not be entitled to recover the costs of repair or replacement from the other benefitted Owners.

6) **Dispute Resolution.** If any dispute arises in connection with the maintenance, repair, and replacement of the Storm Drain System, the following procedures shall apply:

(a) Owners shall meet in good faith and attempt to resolve such dispute amicably. In doing so, the Owner initiating a claim or dispute with another Owner(s) shall first notify the Owner(s) in writing stating plainly and concisely: (i) the nature of the claim, (ii) the basis of the claim, (iii) the proposed remedy, and that the adverse party shall have thirty (30) days to resolve the claim.

(b) In the event that the dispute is not resolved within thirty (30) days following the notice required in subsection (a) above, the dispute shall be submitted to mediation. Mediation is a process in which the parties meet with an impartial person who helps to resolve the dispute informally and confidentially. The parties will jointly appoint an acceptable mediator and share equally in the cost of such mediation. The parties in the dispute must agree before any mediation settlement is binding. If mediation fails, then the disputing parties may proceed with any other legal remedy available, including the commencement of a legal action.

7) **Enforcement.** The restrictions, covenants, and obligations in this Section 8.7 are for the benefit of each Lot Owner in the Project and they shall inure to and pass with each and every Lot and shall run with the land and shall apply to and bind the respective successors in interest of Declarant. Each Owner by acceptance of a deed in the Project, whether or not it shall be so expressed in such deed, is deemed to have accepted all of such restrictions, covenants and obligations and agrees to contribute its proportional share of the costs to repair or replace a Storm Drain System. Each Owner hereby agrees that such Storm Drain System costs shall be a charge on the land and shall be a continuing lien upon the Lot of any Owner who has failed to contribute its proportional share of repair or replacement costs. The Owners within the Project shall be entitled to pursue a lien against a delinquent Owner who fails to pay its proportional share of repair or replacement costs to the fullest extent permitted by law. Each Owner's share of the repair or replacement costs shall also be the personal obligation of the person who was the Owner of such property at the time when the repair or replacement occurred. Subject to the Dispute Resolution section set forth above, each Owner shall have the right to pursue a legal action to personally recover from another delinquent Lot Owner to the fullest extent permitted by law.

8.8 **Garbage Receptacles**

1) No garbage containers or receptacles will be stored in the front yard of a Residence. All garbage containers or receptacles must be stored behind a fence or gate in the back yard or in a garage of the Residence.

2) All garbage containers or receptacles can be placed on the street after 5:00 p.m. the day before the scheduled pick-up day for disposal. All garbage containers or receptacles are to be removed from the street by 6:00 p.m. the day of scheduled pick-up.

Such right of enforcement shall include both damages for and injunctive relief against the breach of any such provision.

9.2 **Violation a Nuisance.** Every act or omission whereby any provision of this Declaration is violated in whole or in part, is hereby declared to be a nuisance and may be enjoined or abated by any Owner, at such Owner's own expense, or by Declarant at the expense of the Owner of the Lot which is violation of the provisions of this Declaration, whether or not the relief sought is for negative or affirmative action. However, only Declarant and the duly authorized agent may enforce by self-help any of the provisions of this Declaration and then only if such self-help is preceded by reasonable notice to the Owner in violation.

9.3 **Violation of Law.** Any violation of any federal, state or local law, resolution or regulation pertaining to the ownership, occupancy or use of any property subject hereto is declared to be a violation of this Declaration and subject to all of the enforcement provisions set forth herein.

Declarant shall collect an enforcement fee upon the purchase of each Lot, and the **first day of each year** thereafter Declarant shall collect an enforcement fee of \$100.00 for each Lot. All such fees shall be held by Declarant for the cost of legal counsel if enforcement of the Restrictive Covenants becomes necessary.

9.5 **Remedies Cumulative.** Each remedy provided by this Declaration is cumulative and not exclusive.

9.6. **No waiver.** The failure to enforce any provision of this Declaration at any time shall not constitute a waiver of the right thereafter to enforce any such provision or any other provision hereof.

ARTICLE X. SPECIAL DECLARANT RIGHTS

ARTICLE XI. RIGHTS OF FIRST MORTGAGEE

Notwithstanding anything contrary contained herein, the following provisions apply:

11.1. **Title in Mortgagee.** Any first Mortgagee who obtains title to a Lot pursuant to the remedies provided in the Mortgage or foreclosure of the Mortgage will not be liable for such Lot's Assessments or charges which accrue prior to the acquisition of title of such Lot by the Mortgagee.
